3rd Annual Conference on
Heart Failure - 2017

4th & 5th February 2017, Chennai.

Educational Support:

Apollo
HOSPITALS

HEART INSTITUTES

Dear Colleagues,

**We welcome you all to
"Heart Failure 360 Degrees".**

The Heart Failure Association of India was formed three years ago with the objectives of increasing the awareness of this disease among the physicians, encouraging them to follow therapies recommended in the guidelines and promoting research in this field. Our engagement and joint meetings with the European Society of Cardiology have been particularly fruitful in furthering our objectives.

Heart failure is a growing epidemic in India. Advances in drugs, medical and surgical devices to support the failing heart and in the field of cardiac transplantation have improved the outlook of these patients. Device-driven-ICU care to "bridge" sick patients until recovery or permanent therapy are now increasingly available in India.

A failing heart has effects on all other organs and is no longer possible for a single doctor to comprehensively provide adequate health care.

This conference has been organised with a view to bring together doctors of different specialities and allied health care professionals -Nurses, Physiotherapists, Dieticians, Perfusionists and Transplant co-ordinators to share and exchange ideas and experiences.

Let us all tackle the growing menace of heart failure together. We invite you all to contribute actively in the deliberations so that we may all learn from each other and go back richer with knowledge.

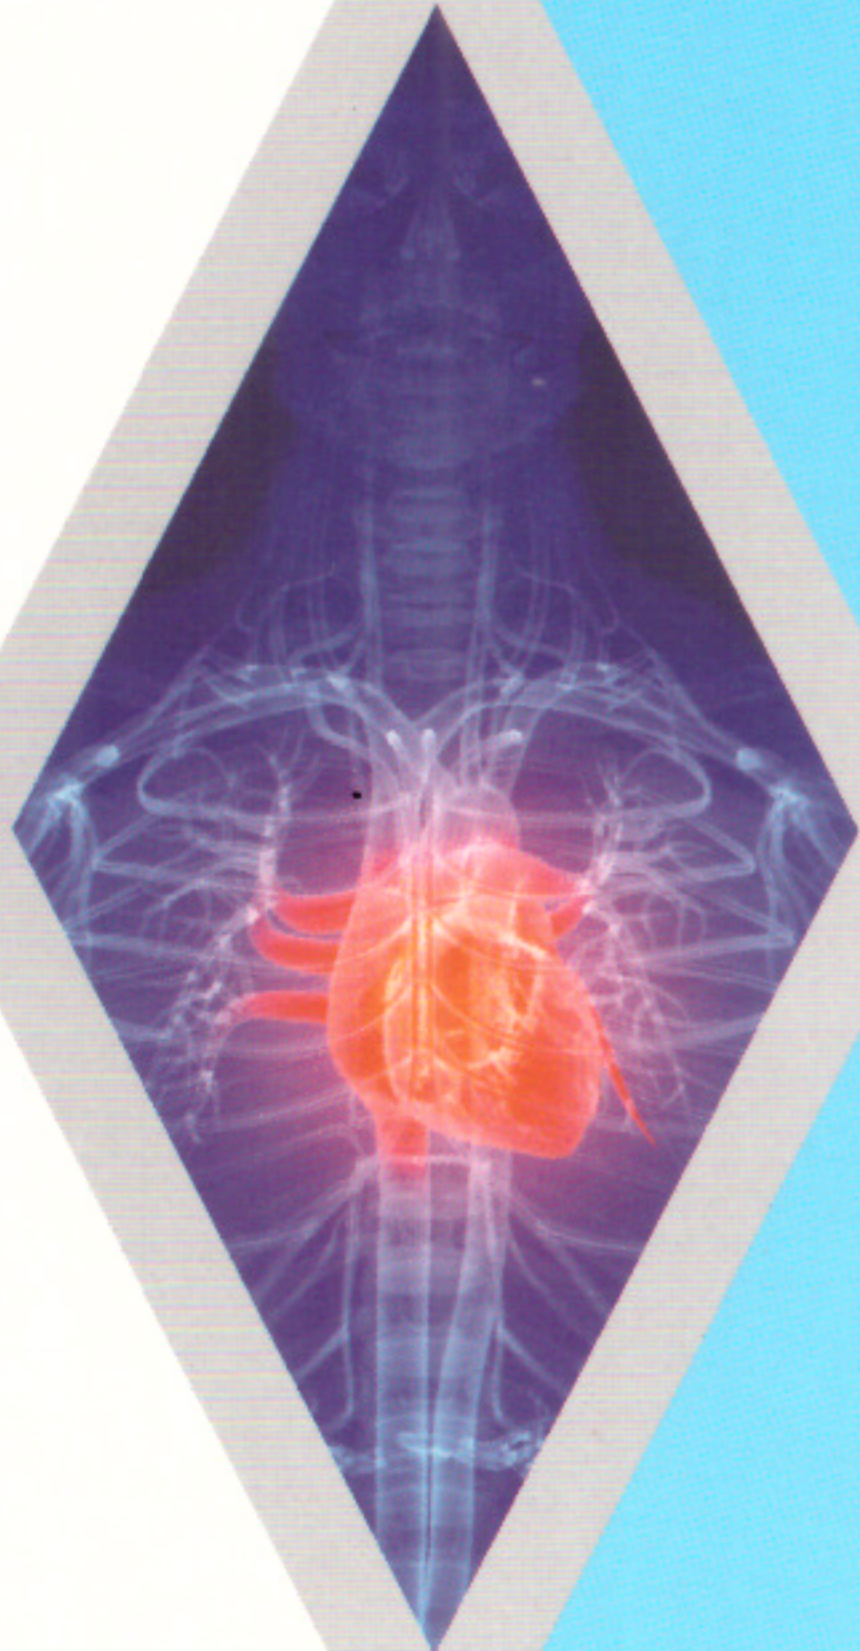

Dr Vijay Kumar Chopra
President,
Heart Failure Association of India

Dr Abraham Oomman
Organising Secretary,
"Heart Failure 360 Degrees"

Dr T Sunder
Organising Secretary,
"Heart Failure 360 Degrees"

HEART FAILURE
ASSOCIATION
OF THE ESC

Heart Failure Association of India (HFAI)

in association with

Heart Failure Association of European Society of Cardiology (ESC)

&

Apollo Hospitals, Chennai
