

**HEART FAILURE
ASSOCIATION OF INDIA**

Improving Heart Failure Care

DIASTOLOGY

6th May 2022 – 7:00 - 8:15 PM

Dear Colleagues,

Greetings from HFAI!

The Heart Failure Association of India (HFAI) is planning to restart the seminar series 'HF Confluence'. The first seminar in the series will be on 'Diastology' which will be held on 6th May 2022 at 7.00pm IST.

Assessment of diastolic dysfunction and LV filling pressure is an important step in the management of heart failure with preserved EF (HFpEF.) This area is developing rapidly and there have been many advances. The ensuing program will focus on the recent updates. We are having national and International experts giving their views in this webinar which will be followed by enriching interactive discussion.

Please register using the free registration link, and once you register, the link to the webinar will be sent to you in due course.

Looking forward to your active participation in the Heart Failure Confluence 2022.

Please share this info with your colleagues and students too.

Warm personal regards,

Dr. V K Chopra
Course Director

Dr. Harikrishnan S
Course Coordinator

AGENDA

7:00 PM	Welcome	Dr Chopra VK
7:05 PM	Echocardiographic evaluation of LV filling pressure: current concepts Chair – Dr. Harikrishnan.S, Dr. Abraham Oommen, Dr. Sanjay Mittal	Dr Liza Thomas
7:25 PM	Exercise and Diastology Chair – Dr. BKS Sastry, Dr. Rakesh Yadav, Dr. K Venugopal	Dr Shantanu Sengupta
7:45 PM	Are Echo derived filling pressures reliable in HFpEF? Chair - Dr. Sandeep Seth, Dr. GS Wander, Dr. JayaGopal	Dr JC Mohan

INTERNATIONAL SPEAKER

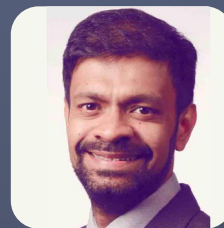

Professor Liza Thomas

Professor Liza Thomas is a Conjoint Professor at Sydney University and University of New South Wales and is Clinical Lead for non invasive cardiac imaging at Westmead Hospital. Her research focuses on echocardiography; specific interests include imaging for the assessment of atrial dynamics and function, diastolic function, chemotherapy induced cardiomyopathy, amyloid and Fabry cardiomyopathies and cardiac involvement in chronic kidney disease. She is the cardiovascular coordinator for the NSW Fabry and Amyloidosis groups. Professor Thomas is actively involved in undergraduate/postgraduate medical student and sonographer education. She supervises several PhD and Masters students. Liza has been invited to speak at numerous national and international meetings and has published more than 125 papers in peer-reviewed journals.

NATIONAL SPEAKERS

Dr. JC Mohan
MD, DM, FASE
Interventional Cardiologist
Chairman Institute of
Heart and Vascular Disorders
Jaipur Golden Hospital, Delhi

Dr Shantanu Sengupta
MD, DNB, FACC, FASE
Director, Sengupta Hospital
and Research Institute
Ravinagar, Nagpur
